

# Code used

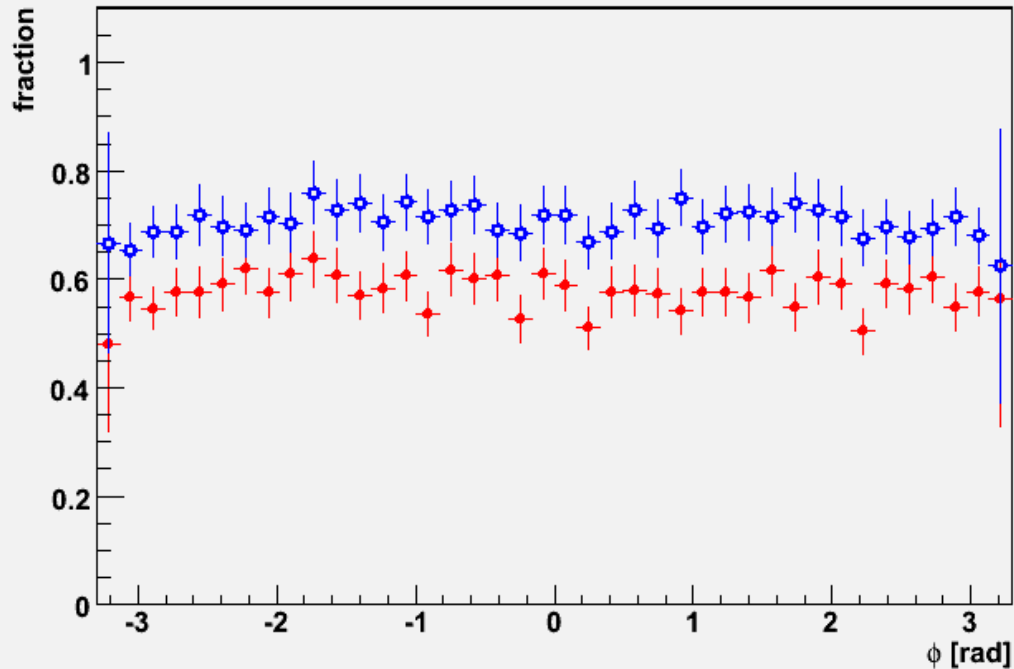

- Corrinne's endcap code
  - Enabled in pattgen/corrgen
- Alberto's pixel clustering
  - Enabled everywhere
  - Cluster size unlimited
- Francesco's updates
  - Patterns-from-constants present, but not used
  - Contains new speed optimizations

## Bsmumu w/ SCT clustering

I.P. resolution

Efficiency vs  $\phi$

Nothing new here!

# Single muons, full eta range
