This problem set will be worth 7 points. First number is chapter in Sakurai and Napolitano; second is problem number.

Problems 6.1 (3 points), 6.2 (2 points), 6.5 (2 points). Numbering for these problems in old edition of Sakurai is 7.1, 7.2, and 7.4. It will be helpful if you read Sections 6.1 through 6.4 in the text, even though we may not cover all the material in lecture on February 22 and 24.

Answers will be posted on Chalk once all problem sets have been received.
